All the way driving, in my own car.
All the way driving, so very far
But the fun of driving, is being soon with you.
But the fun of driving, is thanks to you

Dream on the way. Dream all the way. I am on the way.

All the day working, I go world wide.
Where will I be staying, it's my surprise.
Wherever I be, you're the real fun for me.
Where I will go, I love you so.

Dream on the way. Dream all the way. I am on the way.

All the way home, I think of you.
All the way home, I long for you.
Outward bound, I am trav'ling to you.
Outward bound, heading for you.

Dream on the way. Dream all the way. I am on the way.

How far away, you make my day.
Wherever I be, you're there for me.
How far away, you make my day.
Wherever I be, you're there for me.

Now you're here and next to me.
